2. Attached is a Memorandum that was prepared by OSR in response to the Director's question. The Director has had a chance to review this and has indicated that he would like to meet with the NIOs and other analysts to discuss this paper and his interests. I will arrange some time on the Director's schedule, prior to his departure on 12 June (time permitting), for this session. Once the time is set, I will check with you to determine whom you want to attend (I realize that the subject of Theater Nuclear Forces cuts across a number of different areas of responsibility).
